DETAILED ACTION

Response to Amendment

This Office is response to Applicant's Appeal Brief filed on September 25, 2005. The Rejections in the Appeal Brief have been withdrawn.

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: the closest prior art record Dodrill et al (U.S. Pat. No. 6,766,298) and Mogul et al (U.S. Pat. No. 6,243,761) does not teach or suggest in detail dynamically changing the application during server operation without shutting the server down or recompiling the server by implementing the file in the tag-based language format via a control panel that is coupled to the server in combination with all the elements of the independent claims as argued by Applicant (see Appeal Brief page 4, paragraph 4 and page 7, paragraph 1). So as indicated by the above statements, Applicant's arguments have been considered persuasive, in light of the claim limitations as well as enabling portions of the specification.

2. The dependent claims further limit the independent claims and are considered allowable on the same basis as the independent claims as well as for the further limitations set forth.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Claims 1-49 are allowed.

Response to Arguments

4. Applicant's arguments, see Applicant's Appeal Brief page 4, lines 18-27, page 7, lines 1-11 and lines 21-29, filed September 12, 2005 with respect to claims 1, 15, 27 and 39 have been fully considered and are persuasive. The 103 rejection and 112 first objection of claims 1-49 has been withdrawn.
